1. The 30-Day Precision Guarantee

We offer a 30-day money-back guarantee on The Precision Trader System. We stand behind our product and believe that anyone who genuinely uses the system will see results. To ensure every refund request comes from someone who has given the system a real chance, we ask that you complete the steps below before requesting a refund.

2. Eligibility Requirements

To qualify for a full refund, all of the following must be completed within 30 days of your purchase date:

1. Complete the training: Watch all 6 modules of the Precision Trader Certification in full. Your account activity will show module completion status.
2. Log at least 20 trades in rPilot: Each trade must include the required fields (entry, exit, risk amount, and a brief trade note). rPilot begins generating personalized insights after 20 logged trades - this is the minimum needed to experience the system working for you.
3. Use the Risk Shield tool: Apply the recommended risk amount from Risk Shield on at least 10 of your logged trades. This ensures you've followed the personalized risk guidance rather than guessing.
4. Submit your refund request within 30 days of your original purchase date.

These requirements exist because the system is built to work when you use it. We want to make sure you've experienced the full value before making your decision.

3. How to Request a Refund

To request a refund, email us at support@email.90mtrader.com with the following:

- Your full name
- The email address used for purchase
- Your date of purchase
- A screenshot of your rPilot dashboard showing your logged trades (minimum 20)
- Confirmation that you have completed all 6 course modules

Our team will verify completion of the eligibility steps above using your account data. Once verified, your refund will be processed - no questions asked about why you want one.

4. Refund Processing

Once your refund request is verified, we will process your refund within 5-10 business days. The refund will be issued to the original payment method used at checkout. Depending on your bank or credit card provider, it may take an additional 5-10 business days for the refund to appear on your statement.

5. Payment Plans

If you purchased via the 3-payment plan (\$249 x 3) and request a refund within 30 days:

- We will refund all payments made to date
- Any remaining scheduled payments will be cancelled

6. Post-Refund Access

Upon processing a refund, your access to The Precision Trader System will be revoked, including:

- Course materials and video content
- rPilot platform access
- Community and Discord access
- AI coaching features

You may export your trading data from rPilot before your refund is processed.

7. Exceptions

Refunds are not available in the following circumstances:

- Requests made after the 30-day guarantee period has expired
- Eligibility requirements (Section 2) have not been completed
- Accounts terminated for violation of our Terms of Service or Community Guidelines
- Chargebacks or payment disputes filed without first contacting us directly

We encourage you to contact us directly before initiating a dispute with your payment provider. We are committed to resolving issues quickly and fairly.

8. Digital Product Acknowledgement

By purchasing our products, you acknowledge that you are purchasing a digital product with instant access. Under EU consumer law, you have the right to withdraw from a purchase within 14 days. However, by accessing the digital content immediately upon purchase, you acknowledge that you waive the 14-day withdrawal right for digital content that has been fully provided, in accordance with the Consumer Rights Directive (2011/83/EU). Our 30-day guarantee exceeds this statutory requirement and serves as your primary protection.

9. Contact
